## PERSONAL PROFILE

I'm a JavaScript software developer with a passion to solve real-life problems with code. My goal is to grow my tech and soft skills to be a helpful part of a team, take on difficult challenges and find creative elegant solutions.

## PORTFOLIO

### [MODDO - DAILY ADVISER](#)

Frontend group project | May 2019

Moddo is an web app for creating ToDo lists, and get inspirational quotes. It was created as a space to start your day, receive a daily random motto to inspire you, and keep track of your lists and tasks.

**Tech Stack:** Vanilla JS, FireBase, HTML, CSS, two APIs.

### [INSTANT MEETUP](#)

Backend group project | July 2019

This project was created to solve the problem of spontaneous meetups. Just with a click app allows you to text your friends to meet you at your location using Twilio and Google API.

**Tech Stack:** JavaScript, MongoDB, Mongoose, Express.

**Tools:** Google API, Heroku, Postman.

### [MOVIE CATALOG \( RIPE BANANA \)](#)

Backend solo project | June 2019

This project was devoted to practice NodeJS Routes, Relations, and Dependencies. The main idea is to have lists of movies, actors, studios, and reviews on them.

**Tech Stack:** JavaScript, Node.js

### [TARDYGRAM \( INSTAGRAM VERSION \)](#)

Backend group project | July 2019

This project is the first experience working with MongoDB and Express. Allows create, update, delete posts and leave comments

**Tech Stack:** JavaScript, MongoDB, Mongoose, Express.

## PREVIOUS EXPERIENCE

### MARKOVCO GALLERY MANAGER | 2015-2018

As the owner and manager of a family business, I multi-tasked and wore many hats. I organized exhibitions, music shows, and private events. I also managed an online shop and all finances, and secured a grant for small Businesses from Mercy Corps.

### MARKOVCO LECTURES PROJECT MANAGER | 2018-2019

This project was dedicated to creating educational and safe space for the Russian community in Portland. We highlighted many topics including Worlds Arts, Pchicology and Sociology.
